*Revised, 14 May Order 1913.*

No. 2715.—The following Memorandum and Order issued by the Board of Agriculture and Fisheries, London, are published for general information:—

DISEASES OF ANIMALS ACT, 1904 (No. 1201).

HORSES (IMPORTATION AND TRAFFIC) ORDER OF 1913.

This Order revokes the existing Order dealing with the Importation and Traffic of horses, asses, and mules, and re-enacts those Orders with the following amendments:—

IMPORTATION—CHAPTER I.

Horses, asses and mules brought to Great Britain from abroad are required by the new Order to be accompanied by a veterinary certificate of freedom from symptoms of glanders (including disty), apuritis (including abscesses lymphangitis, disty, horn-pox, acropus, herpes, purpura, mange, in flamm, ringworm, or strangles, instead of, as at present, from symptoms of glanders (including disty) only.

The existing special provisions as to landing at Leith and Newcastle-upon-Tyne are continued. The provisions of Chapter I of the Horses (Importation and Traffic) Order of 1913, which, in effect required horses, asses, or mules brought from abroad to be either accompanied by a License of the Board of Agriculture and Fisheries or to be examined at a place of detention in the port of landing, but which had for various reasons been postponed from time to time and have not been brought into effect, are entirely withdrawn.

The new Order will come into force on the 1st October 1913.

[1908]

ORDER OF THE BOARD OF AGRICULTURE AND FISHERIES

(Made 28th September 1913.)

HORSES (IMPORTATION AND TRAFFIC) ORDER OF 1913.

The Board of Agriculture and Fisheries, by virtue and in exercise of the powers vested in them under the Diseases of Animals Act, 1904 (No. 1201), and of every other power enabling them in this behalf, do order, and it is hereby enacted, as follows:—

CHAPTER I.—IMPORTATION.

*Regulation of Importation of Horses, Asses and Mules.*

1. No horse, ass, or mule, brought to Great Britain from any other country, except Ireland, the Channel Islands or the Isle of Man, shall, subject to the provisions of the last following article, be landed in Great Britain unless it is accompanied by a certificate of a veterinary surgeon to the effect that he examined the animal immediately before it was embarked, or whilst it was on board the vessel, as the case may be, and that he found that the animal did not show symptoms of glanders (including disty), apuritis lymphangitis, abscesses lymphangitis, disty, horn-pox, acropus, mange, purpura, ringworm, or strangles.

*Special Provisions as to Landing at Leith and Newcastle-upon-Tyne.*

2. (1) Horses, asses or mules brought to Great Britain from Ireland or the Channel Islands may be landed in the harbour of Leith, at the Albert Dock, or the Imperial Dock, or the Edinburgh Dock, or at the wharf belonging to the Corporation of Newcastle-upon-Tyne, situate between Mr. Lawrence's road and the River Tyne in the City of Newcastle-upon-Tyne, with the permission in writing of an Officer of Customs and Excise, subject and in accordance with the following conditions, namely:—

(i) A horse, ass or mule so landed in the harbour of Leith shall be moved forthwith by the owner or person in charge thereof to the shed known as the Black Shed and situate between the south side of the Imperial Dock and the Albert Dock Basin.

(ii) A horse, ass or mule so landed in the City of Newcastle-upon-Tyne shall be moved forthwith by the owner or person in charge thereof to the shed in the occupation of the Corporation of the said city situate between Mr. Lawrence's road and the River Tyne.

(iii) Every animal when moved to the said shed shall be there detained by the owner or person in charge thereof until an Inspector of the Local Authority is furnished with a certificate by a veterinary surgeon stating that the horse, ass or mule has been examined by him and does not show

symptoms of glanders (including Cory), equine lymphangitis, infectious lymphangitis, distemper, herpes, infectious oedema, pyoderma, anthrax, ringworm, or strangles, and the Inspector authorizes the removal of the animal from the shed.

(c) During movement to the shed, horses, asses and mules shall be kept separate from all horses, asses and mules not infected under this provision.

(d) If any horse, ass or mule in the shed is diseased or suspected, within the meaning of any Order of the Board, the Local Authority of the District shall proceed in accordance with the provisions of that Order, except that any horse, ass or mule which is not diseased or suspected may be mixed with the written permission of an Inspector of the Local Authority of the District in a vessel in the Locks or Harbour, or in the River Tyne, or the sea may be, for exportation; and also except that no compensation shall be payable in respect of any horse, ass or mule slaughtered by the Local Authority.

#### CHAPTER II.—CARRIAGE BY WATER.

##### *Carriage by Water of Sled Horses, etc.*

3. No horse, ass or mule shall be permitted by the owner thereof, or his agent, or any person in charge thereof, to be embarked in a vessel he deems thereon from any port in Great Britain if, owing to infirmity, illness, injury, fatigue or any other cause, it cannot be carried without unnecessary suffering during the intended passage.

##### *Inspection by Inspector of Customs of Horses, etc., for Glanders.*

4. Where an Inspector of the Board or of a Local Authority is of opinion that a horse, ass or mule intended to be carried on a vessel from any port in Great Britain cannot, owing to infirmity, illness, injury, fatigue, or any other cause, be so carried without unnecessary suffering, he may serve a notice to that effect on the person in charge of the animal and also, when practicable, on the master of the vessel and seal such notice as withdrawn by an Inspector it shall be unlawful to carry the animal on a vessel, and if the animal is carried in contravention of this article, the person in charge thereof, and the master of the vessel, where the notice has been served on the master, shall be deemed guilty of an offence against the Act of 1874.

##### *Provisions as to Vessels carrying Horses, etc.*

5. The provisions of this article shall apply to all vessels on which horses, asses or mules are carried to or from any port in Great Britain.

##### *(Fittings of Vessels.)*

(a) Each horse, ass or mule shall be carried in a separate box or stall, except that breed mares, prime sows, mules and mares and horses in charge of special unsuitable, may be carried in pens. Boxes, stalls and pens shall be of sufficient size, and shall be so constructed as to be of a substantial character, and of sufficient strength to withstand the action of the weather and to bear the weight of any animal that may be thrown against them. A stowable box shall be so secured as to prevent its displacement by the motion of the vessel.

(b) The floor of each box, stall or pen shall, in order to prevent slipping, be fitted with suitable battens, and be strewn with a proper quantity of sand or other suitable substance.

(c) The vessel shall be provided with sufficient and suitable means for affixing the animals carried.

(d) The fittings or other parts of a vessel, box, stall or pen likely to cause injury or unnecessary suffering to horses, asses or mules shall be properly and securely bound off or padded, so that no one may require.

(e) Horses, asses and mules while on a vessel shall be protected against injury or unnecessary suffering from noise exposure to the weather.

##### *(Ventilation.)*

(f) All parts of the vessel in or on which horses, asses or mules are carried shall be sufficiently and suitably ventilated. All such parts if below deck shall, in addition to any ventilation obtained by means of the hatchways, be provided with sufficient and suitable ventilation for the removal of foul air and for the admission of a proper supply of fresh air to all the animals carried.

##### *(Light.)*

(g) All parts of the vessel over which the horses, asses or mules pass, or in which they are carried, shall be properly lighted, and arrangements shall be made for the provision of all kinds of adequate light for the proper tending of the animals.

##### *(Passage Ways.)*

(h) Every part of the vessel where horses, asses or mules are carried shall be provided with one or more passage-ways leading from the hatchway or entrance to each part of the vessel and giving direct access to such box or stall containing a horse, ass or mule. Each passage-way shall be of a minimum width of one foot and six inches, and be kept free of obstruction.

##### *(Food and Water.)*

(i) Horses, asses and mules carried on a vessel for a voyage which on an average takes more than six hours shall be provided, while on board, with a sufficient amount of suitable food and water, and proper accommodation shall be provided on board for the storage of the food so that the same shall not be easily exposed to the weather or sea.

(2) The provisions of the preceding paragraph (1a) shall not apply to a vessel on which horses, asses, or mules are carried from Ireland to a port in Great Britain, or from Great Britain to a port in Ireland, but in any such case the following provisions shall apply:—

(a) Horses, asses, and mules shall be provided while on board with a sufficient amount of food and water on the voyage, and before the sailing of the vessel, the manager or any person in charge thereof, or if the master of the vessel consents such food and water shall be provided in order to protect the animals from unnecessary suffering. The cost of providing the food shall in each case be recoverable from the owner of the animals.

(b) Proper accommodation shall be provided on board for the storage of food carried thereon for the purpose of this provision so that the same shall not be easily exposed to weather.

(Breeding of Horses, etc.)

(3) All horses, asses or mules while being carried in a box or stall shall as far as practicable be securely fast by the head.

(Attendance.)

(4) A vessel on which horses, asses or mules are carried shall carry a sufficient number of qualified attendants to tend the animals properly.

(Returns as to Casualties.)

(5) The owner or charterer of a vessel on which horses, asses or mules are carried shall keep a record of all such animals which have died or have been killed or seriously injured while on such vessel, and shall at the end of every month make a return to the Board whether any, and, if so, how many, animals have so died or been killed or injured on the voyage.

(Riding for Ferry Boats, etc.)

(6) The foregoing provisions of this article shall not extend to the carriage of horses, asses or mules on a vessel across an arm of the sea or over any ferry, or on a river, canal, or other inland water, but the fittings of the vessel shall be such as to protect as far as practicable the animals as carried from injury and unnecessary suffering, and as far as practicable persons shall be made in order to prevent slipping by steering the dock with hand or other suitable means.

(Apparatus, Gangways, Gangways, Stairs, and other Apparatus.)

(7) Apparatus, gangways, gangways, stairs, and other apparatus used for the loading or unloading or movement of horses, asses or mules on or from a vessel, shall be so constructed that injury or unnecessary suffering shall not be caused to the animals.

(Overcrowding.)

(8) A vessel shall not be overcrowded in any part or part so as to cause injury or unnecessary suffering to the horses, asses or mules thereon.

(Injured Horses, etc.)

(9) If any horse, ass or mule on a vessel has a limb broken or is otherwise seriously injured so as to be incapable of being disembarked without cruelty, the master of the vessel may, and shall if so required by the Diseases of Animals Act, 1910, forthwith cause that animal to be slaughtered. The person in charge of the vessel shall forthwith report the injury to the master of the vessel.

(Approved Killing Instruments.)

(10) Every vessel on which horses, asses or mules are carried shall carry a proper killing instrument, to be approved by the Board for that purpose, and it shall be the duty of the owner and master of every such vessel to see that the vessel is provided with such an instrument, and, the moment it is required by an Inspector of the Board or of the Local Authority, shall produce the instrument for his inspection.

*Water at Shipping and Unshipping Places.*

8. At every place where horses, asses or mules are put on board of or landed from vessels, provision shall be made, to the satisfaction of the Board, for a supply of water for the animals; and water shall be supplied there gratuitously to any animal on request of any person having charge of the animal.

*Provision to be made at Unshipping Places.*

9. At every place where horses, asses or mules are landed from vessels, provision shall be made, to the satisfaction of the Board, for the speedy and convenient landing of the animals, and for a supply of food for them; and food shall be supplied there by the occupier of the landing place to any horse, ass or mule on request of any person having charge of the animal, at such price as the Board approves.

CHAPTER III.—CARRIAGE BY RAILWAY.

*Carriage by Railway of Cattle, Horses, etc.*

10. No horse, ass or mule shall be permitted by the owner thereof, or his agent, or any person in charge thereof, to be carried by railway if, owing to sickness, illness, injury, fatigue, or any other cause, it would be carried without unnecessary suffering during the intended transit by railway.

*Notification by Inspectors of Diseases of Horses, etc., for Compensation.*

9. Where an Inspector of the Rules or of a Local Authority is of opinion that a horse, mare or male intended to be carried by railway, contract, sailing to inlandity, disease, injury, fatigue, or any other cause, be so carried without unnecessary suffering, he may serve a Notice to that effect on the person in charge of the animal and also, where practicable, on an officer of the railway company, and until such notice is withdrawn by an Inspector it shall be unlawful to carry the animal by railway, and if the animal is carried in contravention of this article, the person in charge thereof, and the railway company, where the notice has been served on an officer of the company, shall be deemed guilty of an offence against the Act of 1894.

*Construction of Trucks, etc., used for Carriage of Horses, etc.*

10. (1) No horse, mare or male shall be carried by railway in a truck or other vehicle which is not in accordance with the provisions of this Article.

(2) Every truck or other vehicle shall be provided at each end with spring buffers and the floor thereof, in order to prevent slipping, shall be fixed with battens or other proper fastenings, or be strewn with a proper quantity of litter or such or other proper substance.

(3) The battens in a truck or other vehicle (other than a horse-box) shall be placed across the vehicle, except between the doorways, where they shall be placed lengthways.

(4) Every truck or other vehicle (other than a horse-box) shall be so constructed as to admit of ventilation and inspection to the floor level.

(5) Every truck or other vehicle shall be so constructed that the interior thereof shall be free from any bulbous angles or other projections likely to cause suffering to animals carried therein.

(6) Every falling loading door and every gangway, passage-way, landing or unloading board, shall be fixed with longitudinal battens or other proper fastenings.

(7) Every truck for carrying horses, mares or males, built after the first day of March, nineteen hundred and four, shall be fitted with a roof, and with falling loading doors of a pattern approved by the Board, and all internal projections shall be rounded.

(8) Every truck or other vehicle shall be so constructed as to permit of its being cleaned and disinfected in manner prescribed by the Order.

*General Provisions.*

11. A railway company shall not allow any railway truck or other railway vehicle used for carrying horses, mares or males on the railway, or any equipment thereof, to be overcrowded so as to cause injury or unnecessary suffering to the animals therein.

## CHAPTER IV.—CLEANING AND DISINFECTING.

*Trucks.*

12. (1) A vessel used for carrying horses, mares or males by sea, or on a canal, river or inland navigation, shall after the landing of such animals therefrom at any port in Great Britain, and before the taking-on board of any other such animals or other cargo, be cleaned and disinfected as follows:—

(a) All parts of the vessel with which any such animal or its droppings have come in contact shall be scraped and swept, and then be thoroughly washed or scrubbed or covered with water and then have applied to them a coating of kerosene, or be otherwise disinfected in the manner hereinafter prescribed, provided that the application of kerosene shall not be compulsory as regards each part of the vessel so any used for passengers or the crew.

(b) All fittings, gear, harness, or vessels used for or about the animals shall, if not previously removed from the vessel, be scraped, and then be thoroughly washed or scrubbed or covered with water, and then have applied to them a coating of kerosene, or be otherwise disinfected in the manner hereinafter prescribed.

(c) The scrupulous and swiftness of the vessel shall not be hindered unless and until it has been well aired with quicklime.

(d) In the case of a ferry-boat or other vessel which makes short and frequent passages across a river or on a canal, or where other water it shall be sufficient if the ferry-boat or vessel be cleaned and disinfected once at every period of twelve hours within which it is so used.

*Fodder and Litter.*

13. All partly consumed or broken fodder that has been supplied to, and all litter that has been used for or about, horses, mares or males carried by sea, or on a canal, river or inland navigation, shall, if and when loaded from the vessel, be forthwith well aired with quicklime and be effectively removed from contact with horses, mares or males.

*Manure, Droppings and other Apparatus.*

14. (1) A receptacle, gangway, passage-way, gear or other apparatus used for the loading or unloading of horses, mares or males on or from a truck, or otherwise used in connection with the transit of such animals on or from a railway truck or other railway vehicle, or otherwise used in connection with the transit of such animals on a railway, shall on or on practicable after being so used, be cleaned as follows:—

The apparatus shall be scraped and swept, and as effectively to remove therefrom all dung, litter and other matter, and then be thoroughly washed or scrubbed or covered with water.

(2) The scrapings and sweepings of the apparatus, and all dung, litter, and other matter removed therefrom shall forthwith be well aired with quicklime, and be effectively removed from contact with horses, mares or males.

*Trucks, etc.*

25. (1) A railway truck if used for horses, asses or mules on a railway, shall, on every occasion after a horse, ass or mule is taken out of it, and before any other horse, ass or mule, or any fodder or litter, or anything intended to be used for or about horses, asses or mules is placed in it, be cleaned and disinfected as follows:—

(2) The floor of the truck, and all other parts thereof with which any such animal as its droppings have come in contact shall be scraped and swept, and the sweepings and sweepings, and all dung, manure, litter, and other matter shall be effectively removed therefrom.

(3) The same parts of the truck shall be thoroughly washed or scrubbed or treated with water; and then have applied to them a coating of lime-wash, or kerosene disinfectant in the manner hereinafter prescribed.

(4) The sweepings and sweepings of the truck, and all dung, manure, litter, and other matter removed therefrom shall forthwith be well mixed with quicklime, and be effectively removed from contact with horses, asses or mules.

*Horn-Pans, Goads, Pans, etc.*

26. (1) A horn-pans or other railway vehicle (not being a railway truck) if used for horses, asses or mules on a railway shall, on every occasion after the animal is taken out of it, and before any other horse, ass or mule is placed in it, be cleaned and disinfected as follows:—

(2) The floor of the vehicle, and all other parts thereof with which the droppings of the animal have come in contact, shall be scraped and swept, and the sweepings and sweepings, and all dung, manure, fodder, litter, and other matter shall be effectively removed therefrom; and

(3) The sides of the vehicle, and all other parts thereof with which the head or any discharge from the mouth or nostrils of the animal has come in contact, and any halter or headstall used for the animal, shall be thoroughly washed with water by means of a sponge, brush or other instrument, and then as far as practicable be disinfected in the manner hereinafter prescribed; and

(4) The sweepings and sweepings of the vehicle, and all dung, manure, fodder, litter, and other matter removed therefrom shall forthwith be well mixed with quicklime, and be effectively removed from contact with horses, asses or mules.

*Disinfection prescribed in Special Cases.*

27. The prescribed manner of disinfection to be adopted in the case of any place or thing, or part of a place or thing required to be disinfected under this Order is as follows:—

The place or thing, or the part thereof, required to be disinfected shall be thoroughly swept or washed with:—

(a) a one per cent (one-hundredth) solution of carbolic acid containing not less than thirty per cent of available alkali, or

(b) a four per cent (four-hundredths) solution of carbolic acid (containing not less than thirty-five per cent of available alkali), followed by a thorough sprinkling with lime-wash, or

(c) a disinfectant equal in disinfecting efficiency to the above-mentioned solution of carbolic acid, followed by a thorough sprinkling with lime-wash.

*CHAPTER V.—GENERAL.**Digging up Graves.*

28. It shall not be lawful for any person, except with the licence of the Board or permission in writing of an Inspector of the Board, to dig up, or cause to be dug up, the remains of any horse, ass or mule that has been buried.

*Exposure of bones of Carcases of Horses, etc., washed ashore.*

29. Section 46 of the Diseases of Animals Act, 1884, which relates to exposure of bones of certain carcases washed ashore shall apply in any carcase of a horse, ass or mule washed ashore.

*Local Authority to enforce Order.*

30. The provisions of this Order, except where it is otherwise provided, shall be executed and enforced by the Local Authority of each District in Great Britain.

*Enactment of certain Sections of Diseases of Animals Act, 1884.*

31. Horses, asses and mules shall be included for the purposes of the following sections of the Act of 1884 (namely):—

Section thirty-three (Fetters).

Section thirty-four (General Administrative Provisions).

Section thirty-six (Provisions as to Customs Acts for material leading to shipping).

and also for the purposes of all other sections of the said Act containing provisions relating to or consequent on the provisions of these sections and this Order, including such sections as relate to offences and legal proceedings.

*Order not drawn by the G.P.O.*

32. This Order does not bind the Crown.

*Offence.*

33. (1) If any horse, ass, or mule is loaded in contravention of this Order, the owner thereof, and the driver and the driver of the place of loading where such animal is loaded,

and also the owner and the charterer and the master of the vessel from which the same is landed, shall, each according to and in respect of his own acts and defaults, be deemed guilty of an offence against the Act of 1894.

(2) If any horse, ass or mule is landed on a vessel which does not conform to the provisions of this Order as to vessels carrying horses, asses or mules, or if any such provision, or any provision as to the clearance and disinfection of vessels or any apparatus used in connection with the transit of such animals by sea, is not complied with on a vessel on which horses, asses or mules are carried the owner and the charterer and the master of the vessel shall, each according to and in respect of his own acts and defaults, be deemed guilty of an offence against the Act of 1894.

(3) If any horse, ass or mule is carried by railway in a vehicle which is not constructed in accordance with the provisions of this Order, or if any provision as to clearing and disinfection of railway vehicles used for horses, asses or mules, or any apparatus used in connection with the transit of such animals on a railway, is not complied with, the railway company carrying the animal or animal or using the vehicle or apparatus shall be deemed guilty of an offence against the Act of 1894.

Port St. George, October 30, 1913.

No. 146.—His Excellency the Governor in Council hereby certifies under the provisions of section 4 of the Madras Forest Act, 1907, that it is proposed to constitute the block of land described in the schedule below a "reserved forest" under the said Act:—

SCHEDULE.

Number.	Division.	Taluk.	Village.	Area of Block.	Boundaries.
146.	South Canara.	Karikal.	Ida.	Forest Extension VI.	Boundaries as all other by the Madras Forest Act, 1907.

Note.—The land described above is Extension No. 6 Taluk in the Madras reserved forest.

2. His Excellency the Governor in Council appoints under clause (4) of the said section the Sub-Collector in charge of the Coondapur Division for the time being to be the "Forest Settlement Officer," and to acquire into and determine the existence, extent and extent of any right claimed by or alleged to exist in favour of any person in or over the land comprised within such limits to any forest produce of such land, and to deal with the same as provided in chapter II of the said Act. The Settlement Officer in Council further appoints the District Forest Officer, South Canara, for the time being to attend on behalf of Government during the enquiry provided by Chapter II of the said Act.

3. His Excellency the Governor in Council under the authority vested in him by section 14 of the said Act, appoints the Collector of South Canara, for the time being, to be the officer of the Revenue Department, who shall have appeals from the orders of the Forest Settlement Officer under sections 11, 12 and 13 of the said Act.

Part III, *Surveys, October 31, 1913.*

No. 210.—In exercise of the powers conferred by section 5 of the Madras Survey and Boundaries Act, 1883, His Excellency the Governor in Council hereby orders the survey of the portion of the Vaniyambadi municipality known as the New Town under the provisions of the said Act.

No. 211.—In exercise of the powers conferred by section 17 (4) of the Madras Survey and Boundaries Act, 1883, His Excellency the Governor in Council hereby orders the survey of the estate lands situated in the portion of the Vaniyambadi municipality known as the New Town under the provisions of the said Act. The survey is necessary for the purposes of general municipal administration.

Part III, *Surveys, November 3, 1913.*

No. 212.—In exercise of the powers conferred by section 5 of the Madras Survey and Boundaries Act, 1883, His Excellency the Governor in Council hereby orders the survey of the Polar area for one mile above and one mile below the Vaniyambadi municipal limits under the provisions of the said Act.

## ACQUISITION OF LANDS.

Part II, *Surveys, November 3, 1913.*

Under section 5, Act I of 1884, His Excellency the Governor in Council hereby declares that the land described in the following schedule and measuring 64 acres, be the same a little more or less, is needed for a public purpose, to wit, for a field channel for the irrigation of S.P. Nos. 508 and 509; and, under sections 5 and 7 of the same Act, the Revenue Divisional Officer, Madurai, is empowered to perform the functions of a Collector under the Act and directed to take order for the acquisition of the said land.

Madras, 11th November 1913

J. H. NELVILLE,  
Inspector of European and Training Schools.

**EXAMINATION IN SCHOOL MANAGEMENT AND IN THE ART OF TEACHING FOR EUROPEAN TEACHERS IN EUROPEAN SCHOOLS IN THE MADRAS PRESIDENCY AND IN THE CIVIL AND MILITARY STATIONS, BANGALORE, UNDER ARTICLE 25 OF THE CODE OF REGULATIONS FOR EUROPEAN SCHOOLS.**

An examination in School Management and the Art of Teaching, under article 25 of the Code of Regulations for European Schools, Madras and Bangalore, will be held on the 13th of December 1913. The contents of the examination will be notified later.

2. The examination is open to European teachers who have taught in recognised European schools in the Presidency of Madras or the Civil and Military Station, Bangalore, for not less than two years since December 31st, 1905, under the supervision of the Inspector of European Schools or an Inspector of Girls' Schools and who have satisfied the Inspector of European Schools as regards their methods and skill in teaching and in class management.

Applications should be made on printed forms, which can be obtained from the Inspector of European Schools, Old College, Madras, S.W., and should reach the Inspector not later than 17th November 1913. They should be accompanied by a covering letter, in which should be quoted any remarks made by the inspecting officer on table (B) of the annual inspection reports of the present and previous years relating to the status of the teacher and his or her eligibility to appear for the examination. It should also be stated whether the applicant appeared for the examination in 1912 or previous to it.

Applications from teachers employed in schools under the inspection of an Inspector of Girls' Schools should be submitted through the Inspector concerned in order that the latter may have the opportunity of granting the certificate of eligibility appended to the printed form of application. No fee need be paid before the submission of the application, but each teacher or teacher-elect after scrutiny of their applications will be required to pay the prescribed fee (paysée fixe) before admission to the examination.

3. Applications from teachers who seek to satisfy the conditions of admission as students of receipt of this notification should be submitted as soon as possible, in order to facilitate notification in this office of the same stated in the applications and to afford ample time for determination of their eligibility or the reverse.

4. Candidates desiring to receive themselves that their applications have been received should enclose an addressed post-card in their respective applications. The post-card should bear the sender's address only and be in his writing. Such post-cards will be returned to them in due course with the Inspector's acknowledgment.

5. The following is the curriculum for the examination for the Middle and the Primary Teachers' certificates. The same papers may be set for both grades, but may contain a certain number of alternative questions of a simpler nature for candidates of the Primary grade:—

**SCHOOL MANAGEMENT.**

(a) School buildings and equipment; the bearing of various types of school-building on the work of the school; sanitary conditions and ventilation.

(b) The methods for different types of European schools; the training of apprentices in different subjects and of trainees.

(c) School records including European School regulations and returns.

(d) The moral aim of school work and its connection with the home. Formation of habits—moral and mental—such as order, thoroughness, consideration for others, loyalty to fellow-pupils and teacher, the intelligent use of labour. Importance of studying the individual pupil. Personality of the school. School discipline, common breaches of order and decorum and how to deal with them. Breaches of the moral law and how to deal with them. Relations between teacher and pupil and teacher and parent; progress and conduct reports.

**ART OF TEACHING.**

General principles of method.—(1) The selection of a subject into various subjects (a) for each school year or term, (b) for each lesson. Differences which may be noticed between the sequence of ideas or arrangement of the subject matter, which may be demanded (i) by the nature of the child's mind and (ii) by the systematic treatment of two books. The use of inductive rather than deductive methods.

(2) Perception and apprehension.

(3) The typical lesson form; the four steps—

(i) Preparation (particularly as connected with bringing into the pupils' minds those thoughts and feelings which will help in the acquisition of the new knowledge, whether they are the result of previous lessons or of his out-of-school experience, and as involving an introduction of the aim of the lesson).

- (ii) Presentation, the modes of presentation, *eg.* experiment, narrative, developing questioning.  
 (iii) Abstraction, especially limitations to its use.  
 (iv) Application.

*The teaching of the subjects of the curriculum.*—Structure and use of the vocal organs; nature of speech; correct articulation; use of vowels, consonants and speech; reading the alphabet, look-and-say and phonic methods, silent reading; correction, *in situ*, the selection of pieces of writing, methods of holding pen and pen, hygienic posture in writing; direction and transcription as means not ends; Grammar, the aim in teaching it, its correlation with reading and composition; composition, oral and written, the use of pictures, objects, stories, previous lessons, word and sentence building and paraphrase in teaching it; the ordinary rules of punctuation; the teaching of sentence and paragraph sentences; the value of sentence reading; choice of subjects in relation to the attainment of the aims.

*Hand and eye training.*—Drawing, the various media suitable for school work and the utility in practice of such first methods of building media and pictures as work; the use of felt paper and objects, memory drawing; drawing as a training in observation and accuracy as a means of representing facts and ideas. Correlation of drawing with the other subjects of the school system, *ie.*, map and play drawing in connection with history and geography; and arithmetic; drawing in connection with object lessons and nature study; drawing in connection with writing; kindergarten composition and their correlation with the other subjects of the child's education.

*Nature study in Elementary Science.*—In situ and methods; the teaching of suitable names of insects about natural phenomena, including animal and plant life and elementary physical geography with reference to local circumstances.

*Number work and Elementary Mathematics.*—Suitable methods and apparatus, especially position methods in arithmetic and geometry, and oral methods in arithmetic.

*Geography.*—In relation with nature study on the one hand and history on the other—importance of abstraction or generalisation in geography teaching—the real meaning and use of maps—map-drawing as map-copying—other useful apparatus.

*History.*—Frequent errors in teaching it, too much detail, want of perspective, confusion as to pupils' real understanding of its subject matter, failure to bring into play relation with their first-hand knowledge of things, exclusive reliance on fact systems, failure to correlate with geography and language work. Importance of biographies, how to select and teach biographies. Necessity of a knowledge of human nature and of realistic treatment. Importance of the study of history on character. How to turn up a good syllabus. Ways of dealing with the story text-book. Selection of appropriate poetry, songs and myths in connection with the period studied.

*Domestic Economy for women (housewife).*—Methods appropriate for the teaching of the course for Middle and Primary schools published by the department.

*General.*—Notes and note taking, their use in school work; home work and exercises, its nature and amount for different classes and in the different subjects; means for limiting amount of home exercises as much as possible in lower classes; the correction of home exercises and notes.

The preparation of lessons by the teacher, notes of lessons.

*Library and Museum.*—Their value, methods of encouraging their use by pupils.

For the High school Teachers' curriculum, the above curriculum will be followed except that "Hand and Eye Training" under "The Art of Teaching" may be replaced by any two of the following subjects—

- |                                       |  |

## REVENUE NOTIFICATIONS.

## NOTIFICATION.

No. 75.—Whereas it has been found necessary to take steps to control the preparation, processing and sale of denatured spirit in the Madras Presidency, the following rules have been framed by the Board of Revenue under sections 5, 11, 12, 13, 15, 17, 18 and 19 (a) of the Madras Abolition Act of 1911 as amended by Madras Act I of 1902 and Act I of 1912, in accordance of the rules contained in *Gazette*, dated 25th May 1912, published on pages 870-903 of Part II of the *Ann. 30, Stamp*.

1. Denatured spirit is spirit rendered effectively and permanently unfit for human consumption by the admixture of light carburettions and crude pyridine bases wholly made from a mineral source as per specifications appended, or wood-naphtha, or other special denaturants, approved of by the Board of Revenue.

2. Denatured spirit is liable to a duty of 5 per cent. ad valorem; the duty being calculated on the declared value price of such denatured spirit at the distillery, less the dividend, if any, allowed to producers and the duty. Distillers should, when applying for a permit, declare the sale price of the spirit at the distillery for the purpose of calculating the ad valorem duty.

3. Denatured spirit may be manufactured by holders of Certificates issued by the Presidency, provided (1) that the light carburettions and pyridine bases to be mixed with the spirit must first be tested and approved in the Board's Laboratory; (2) that they must be kept under lock and key by, and used under the supervision of, the distillery officers; (3) that they must be used in the proportion of 5 g a gallon of light carburettions and 5 g a gallon of pyridine bases to 50 gallons of the spirit; and (4) that the spirit shall not be of less strength than 50 per cent. overproof. Similar conditions apply to the use of wood-naphtha, in the special cases where its use is permitted, with this difference that one part by volume of crude wood-naphtha of a strength not less than 80 per cent. overproof shall be mixed with nine parts of spirit and that the use of wood-naphtha in a highly purified condition will not be permitted. The Board's permissive sanction should be obtained in cases of special methods of denaturing for spirit intended for some particular use and circumstances.

4. Spirit denatured with light carburettions and pyridine bases may be imported by sea, but samples must be submitted to the Board's Laboratory and there certified to be fully denatured before it can be received from the steam-ship. In the case of imports by sea from other Presidencies a certificate from the Collector of Customs at the port of shipment to the effect that the spirit has been fully denatured with light carburettions and pyridine bases as laid down in rule 3, may be accepted in lieu of the Board's report. Spirit that is not sufficiently denatured must either be denatured afresh or must pay duty at the full retail rate. Spirit treated with wood-naphtha or other special denaturants can be imported only after the special sanction of the Board.

5. (a) Spirit denatured with light carburettions and pyridine bases may be imported from other Presidencies by land with the previous permission of the Collector, provided that the spirit to be imported has been fully denatured as laid down in rule 3 and provided also that such spirit is transported from the frontier to the Collector's order under a permit in form M.S.—2 to be obtained from the Collector at such place. Spirit treated with wood-naphtha or other special denaturants can be imported by land only with the special sanction of the Board.

6. Licences (M.S.—3). For sale of spirit denatured with light carburettions and pyridine bases will be issued by Collectors, free of fee, to responsible applicants on their showing that they have a legitimate demand for such spirit. All such applications should be forwarded to the Collector through the Inspector of the Salt, Alkali and Customs Department of the Circle in which the applicant wishes to hold his licence. No such licence will be issued to persons licensed to sell liquor for consumption on the premises.

7. A. The holder of M.S.—2 licence may obtain their supply of spirit from the steam-ship or distillery or protection of a written permission (M.S.—5) for the removal of the same from the Collector of the district in which the steam-ship or distillery is situated. Books of form of application for such permission (M.S.—3) will be supplied to them. Three applications should be forwarded to the Collector concerned through the Collector of the district to which the applicant wishes to transport the spirit. The spirit may also be obtained from a depot licensed for the wholesale trade at the spirit in quantities not exceeding 100 gallons at a time or from other M.S.—1 licensees up to a maximum of 50 gallons at a time on presentation of a requisition in form M.S.—6. The licensee may also import to sell spirit to one another and to holders of M.S.—1 or M.S.—2 licensees up to a maximum of 50 gallons at a time. The transport of spirit thus sold should be covered by a permit to be granted by the seller in such case. Books of permits (M.S.—4) for the transport of the spirit to be obtained from holders of M.S.—1 license in quantities exceeding 50 gallons but not exceeding 100 gallons will be issued to holders of these licenses on application to the Collector of the district in which they carry on their business.

Denatured spirit may also be imported from other Presidencies by land subject to the conditions laid down in rule 4 (a) above.

B. Travelling licences and others requiring spirit denatured with light carburettions and pyridine bases for use in their business, but not for sale, will be given special license (M.S.—4) upon application, supported by evidence as to their requirements through the Inspector of the Circle, to the Collector of the district in which they carry on their business. They will be supplied to distillers or through the steam-ship or protection of a permit (M.S.—5) to be obtained from the Collector on application in form (M.S.—3). These licensees may also obtain their supply of spirit from a depot licensed for the wholesale trade of such spirit in quantities not exceeding 100 gallons at a time or from holders of M.S.—1 license up to a maximum of 50 gallons at a time. Denatured spirit may also be imported from other Presidencies by land subject to the conditions laid down in rule 4 (a) above.

8. Holders of M.S.—1 and M.S.—2 licensees with an application to the Collector of the district in which they carry on their business, be furnished with books of requisitions (M.S.—6) entitling them to obtain spirit denatured with light carburettions and pyridine bases in quantities not exceeding 50 gallons but not exceeding 100 gallons at a time from holders of M.S.—2 license, and in quantities not exceeding 100 gallons from a depot.

8. Similar licences (M.S.—1-b) will be given to Christie and others who, for special reasons, require spirit bonded with wheel-taps. The procedure will be the same except that (unless the Board has given a special authority to import the spirit) will be obtainable only from bond 4-owners and that the licensee will be required to return a bond (M.S.—6) with the Collector undertaking to use the spirit for the purpose specified and so on. The forms to be used in this case will be M.S.—1-b, M.S.—2, M.S.—3. Persons holding these licences will also be allowed to fill such spirit up to a maximum of one barrel at a time, in the case of it being ordered in writing by a competent medical man. Such orders are to be retained by the officer in his stock book until the latter is reported by an Abkiri officer.

10. A special licence in form M.S.—1-a will be issued to the Railway Companies in the Presidency for the storage and use of spirit denatured with light naphthalene and pyridine bases and its distribution to such extent on their respective lines, as may be specified in the licence, provided that the licensee enter into bond with the Collector undertaking to use the spirit for the purpose specified in the licence and no other. The licensee may obtain their supplies of the spirit from the custom-house or distillery on production of a written permission (M.S.—2) to be obtained from the Collector of the district in which the custom-house or distillery is situated, or application to form M.S.—3. The spirit may also be obtained from a depot licensed for the wholesale retail of the spirit up to a maximum of 120 gallons at a time on production of a requisition in form M.S.—4. Stocks of applications or requisitions may be had from the Collector of the district in which the licence is held. The Railway Companies will be exempted from taking out separate licences for individual stations for the possession and use of the spirit received from the M.S.—1-a permits. The transport of spirit should be covered by a permit (M.S.—5) to be granted by the Revenue in such case. Denatured spirit may also be imported from other Presidencies by land subject to the conditions laid down in rule 4 (e) supra.

11. A special licence in form M.S.—1-d will be granted to distillers, who are also manufacturers of denatured spirit for the wholesale retail of such spirit, manufactured in their distilleries, not exceeding 100 gallons at one time to holders of M.S.—1 and M.S.—1-a licences and not exceeding 250 gallons at one time to holders of M.S.—1-a licences on production of a requisition in form M.S.—4. The transport of the spirit so licensed shall be covered by a permit in form M.S.—5 to be granted by the Department in such case.

12. The customs or distillery officers or wholesale depots-keepers concerned will send no advice in form M.S.—2 of each issue of denatured spirit that he makes to the Inspector of the Circle to which the spirit is consigned. This advice must be sent promptly at the time of issue. No more than 500 gallons at any one time to any one person is permitted from a custom-house or distillery. The same limit will apply to imports of denatured spirit from other Presidencies by land. Collectors who permit such spirit, stored at the same time above the quantities sanctioned of the permission granted to them for such imports using the advice of M.S.—2 intemperately sanctioned.

13. Undenatured spirits are prohibited from selling denatured spirit, and from possessing more than one gallon at a time. The limit is fixed under section 33 of Act I of 1902. Breach of the rule will subject the offender to the penalties prescribed in the Act.

14. When insufficiently denatured spirit is again denatured under rule 4 supra, the importer will bear the expense.

15. The minimum strength at which imported and locally-made denatured spirit can be sold will be 40° over-proof.

#### APPENDIX.

##### OFFICIAL LABORATORY TESTS TO ASCERTAIN THE COUNTERFEIT OF SAMPLES OF LIGHT CARBONATE AND FINEST BLENDED CARBONATE ALCOHOL.

##### Light carbonates.

1. *Notes.*—By "carbonatizing" is meant the liquid obtained by the dry distillation of value used within. By "light carbonate" is meant the liquid obtained by redistilling "carbonatizing" and collecting that portion which passes over at or below about 100° C.

2. *The specific gravity of light carbonate.*—The specific gravity of light carbonate at 60° F. should be between 785 and 789 referred to water at 15°C.

3. *Boiling test.*—For the purpose of this test, 10 c.c. of light carbonate should be introduced in the spiritus testis flask (see specification for pyridine bases). Under these conditions not more than 15 c.c. of distillate should pass over at or below 100° C. which is acid (indicating the presence) of at least 70 c.c. should pass over at or below 100° C.

4. *Admixture of white carbonates.*—When 25 c.c. of light carbonate are shaken with an equal volume of water in a stoppered graduated cylinder and the test is allowed for the liquids to separate into two layers, the light carbonate should show no appreciable dissipation in volume.

5. *Stratification.*—The aqueous layer obtained from test 4 should show no marked cloudy or silicious when tested with both red and blue litmus paper.

6. *Test of saturated carbonate.*—At least 70 per cent. of the light carbonate should be soluble in concentrated sulphuric acid. For testing this, 10 c.c. should be measured off into a tapered and stoppered graduated cylinder of suitable capacity and sulphuric acid should be added, at first with great care and in very small quantities. After each addition of acid, the cylinder should be shaken and held to avoid loss of volatile constituents. Further acid may be added (usually about 50 c.c.) for the high colored layer to become quite fluid so that it can separate readily from the upper layer of uncoloured carbonate. After a few thorough shaking and rocking, the cylinder should be tapped off. The almost colorless upper layer should be again shaken with strong sulphuric acid and separated as before after standing. It should finally measure not more than 7 c.c. The acid used will be of commercial quality.

7. *Proven from water.*—Light carbonate should not contain any appreciable amount of water. Any officer engaged in drawing samples for test should verify on the bottle that he has drawn the sample from the bottom of the containing vessel where the water, if present, will be found. For this purpose he should employ a syringe tube of which the shorter end reaches to the floor of the containing vessel. He should also assure himself that the sample is selected in a bottle free of moisture.

## Pyridine base.

*I. Color.*—The color must not be darker than that given by two cubic centimeters of decolorized loline solution distilled in one liter of distilled water.

*II. Reactivity with water.*—25 c.c. of the pyridine base should give a clear mixture with 40 c.c. of water; or else a mixture only so slightly opalescent that, after standing for five minutes, ordinary newspaper type is clearly visible through a layer 10 c.m. deep.

*III. Amount of water present.*—From 20 c.c. of the pyridine base mixed with 50 c.c. of anhydrous alcohol (density 1.4), at least 100 c.c. of the base should separate, after having been rapidly shaken together and allowed to stand.

*IV. Reaction.*—Dissolve 1 c.c. of the pyridine base in 10 c.c. of distilled water. Titrate with normal sulphuric acid until a drop of the mixture gives a definite blue spot on orange-red paper (the blue color should at once disappear). At least 12 c.c. of the normal sulphuric acid should be required to produce this reaction. (To prepare the orange-red paper, dissolve one gram of Congo-red in one liter of distilled water. Soak filter paper in this and then dry.)

*V. Oxidation chloride reaction.*—Vigorous shaking together 10 c.c. of a solution of 1 c.c. of pyridine base in 200 c.c. of distilled water with 5 c.c. of a 5 per cent. solution of dry fused sodium chloride. A distinct crystalline precipitate should immediately result.

*VI. Boiling-point.*—Distil 100 c.c. of the pyridine base in the manner described below. At least 80 per cent. should distil over at or under 140° C.

*Method.*—100 c.c. of pyridine base are placed in a short-necked copper flask of about 200 c.c. capacity. The flask is attached to a fractionating column (consisting of a tube 15 c.m. wide and 170 m.m. long, provided with one ball) of which the still-plate (having 1 c.m. above the bulb) joins a Liebig's condenser of which the cooled part is at least 400 m.m. long. A standard thermometer is placed in the head of the column so that its bulb occupies the centre of the bulk of the column.

The speed of distillation is adjusted to 5 c.c. per minute, the distillate being received in a graduated glass cylinder. At least 80 c.c. should distil over at or under 140° C. at a barometric pressure of 760 m.m.

If the barometric value lies between 760 m.m. a correction of 1° C. for each 20 m.m. of variation should be applied (e.g., under 770 m.m. of pressure 80 c.c. of distillate should come over at or under 140-140° C., while under 780 m.m. the same amount of distillate should come over at 138-138° C.).

*Note.*—Pyridine proper is a single definite compound (C<sub>5</sub>H<sub>5</sub>N) boiling at about 115° C. Pyridine bases are mixtures of pyridine with closely allied compounds boiling at various temperatures. They are cheaper and more effective fumigants than the pure pyridine.

## OFFICIAL ADVERTISEMENTS.

## TENDERS FOR THE PURCHASE OF TEAK LOGS, ETC.

Tenders are invited for the purchase of the undesignated teak logs and poles and miscellaneous timber from the Mysore Teak plantations which are being stored at the Government Forest Depot at Bangalore near Calicut.

### Description of Aims

[illegible]

Tenders should be sent in Nilambur by registered post addressed to the District Forest Officer, North Malabar, Nilambur, so as to be received by him on or before November 30th, 1913. No tender will be considered unless sent by post.

**E. Teachers with a purposeful — Teachers for Everyone Task.**

1. Tender must offer rates separately for each category of timber in lot 1. In the above lot we should pay 10¢ per cord of 12 cubic feet, in the case of stumps a, b, c, d and e and per pole in lot 12. Tender must offer rates separately per cord of 12 cubic feet for each stump

4. Each tender whether for lot I or for any item or items of lots II-X, or both, must be accompanied by an equivalent money deposit<sup>1</sup> either in the form of a check for Rs. 100 paid into the Treasury or in any currency note for Rs. 100. The deposits of unaccepted tenders

as the numbers have been spread and in the case of successful tenders the deposits will be adjusted towards the first instalment of the purchase money payable under the contract.

Texas (O'Brien's successor) of his trade. The conditions of the agreement is to be examined into can be authorized by referendum to the undersigned as to the Department, Japanese, Mexican. The successful business as business will pay a deposit equal to the cost of the business.

Secretary of the United States Treasury, to deposit equal to 1 per cent. of the purchase money into the United States Treasury to security for performance of the contract and provide the Treasury receipt at the time of making the agreement. If he fails to sign the agreement or to deposit the money, the entire money deposit received with the tender will be returned to the contractor.

\* Successful bidders will be required to pay the whole sale amount by the end of February 1924.

7. No removal of Usher will be allowed before the end of the 24-hour period.

<sup>b</sup> The timber already listed in the previous Report can be submitted as new if a before-the-market study indicates a new use. Each item must be submitted with a before-the-market study.

All under is reported at Bureau by December 1st.

9 The District Forest Officer reserves the right to extend or refuse to issue a permit.

THESE, however, reserved the right to accept or reject any tender without assigning

### TESTERS FOR REPAIRS TO SATHASRADI TANK

Notice is hereby given that sealed tenders will be received by the Executive Engineer up to noon of the 20th December 1953 for the execution of the works noted below:—

Report to Pathengada Tank, L. No. 105, Baldepet taluk	...	...	...	Rs. 2,000
---	-----	-----	-----	--------------

1. The amount of earned money to be deposited along with each tender in No. 30, being which the tender fails to be considered. The earned money may be paid at any time before the date fixed at the office of the Executive Engineer at Chhapra and the receipt of the Manager obtained. This receipt will be required by a formal request submitted by the Executive Engineer which should be countersigned at the time of payment of the earned money.
2. Tenders should be sent in sealed covers accompanied "Tender for the work" the name of the work or works being given without fail or otherwise they are liable to be opened before or after the due date.
3. Any tender not received on the due date will not be considered.
4. Tenders should be written up in P. W. D. Form No. 1 complete in every detail. The form may be obtained on application at the Division or Sub-divisional office.
5. Plan and specification and local estimate may be seen at application at the Chhapra District Office on all working days between the hours of 12 A.M. and 4 P.M.
6. In the event of the tender being submitted by a firm, it must be signed separately by each member thereof or in the event of the absence of any partner it must be signed on his behalf by a person holding power-of-attorney authorizing him to do so.
7. The address of each tenderer should be given in full on the tender form.
8. The successful tenderer will be asked to execute the necessary agreement on a date which will be fixed by the Executive Engineer and if the tenderer fails to do so within that date, his earnest money will be forfeited.
9. The work should not be sub-let.
10. Date of completion of work—31st January 1925
11. The Executive Engineer reserves to himself the right to reject the lowest or any tender without assigning any reason for so doing.
12. The form below is the schedule form, printed in P.W.D. Form No. 2 and gives the description and quantity of the several items of work to be done.

### IN THE DISTRICT COURT OF ANNEST AT KOULANGAM, SUMBA.

Suit No. 6 of 1912

M. Ganapathy Chetty vs. K. Ram Menkham Pilla. Plaintiff Defendant.

To

K. Ram Menkham Pilla, administrator of Kpanto village, Karna, or of Tambakhalai, Tiruchinopoly district, India.

Whereas the plaintiff above-named has instituted a suit against you for an order allowing plaintiff to pay into Court the sum of Rs. 740 in satisfaction of a promissory note, dated 1st July 1911, executed by plaintiff in favour of said defendant and endorsed in blank over to you, you are hereby summoned to appear in this Court in person, or by a duly authorized Pleader of the Court duly authorized and able to answer all material questions relating to the suit, at which shall be accompanied by some other person able to answer all such questions, on Wednesday, the 13th day of December 1912, at 12 o'clock in the forenoon, to answer the above-named plaintiff, and you are hereby required to take notice that in default of your appearance on the day before mentioned, the same will be treated in your absence.

Given under my hand and the seal of the Court this 25th day of October 1912.

And, I, should you appoint your attorney will not attend at said court, you can have recourse from this Court to compel the attendance of any witness, and the production of any document that you have a right to call upon the witness to produce, on applying to the Court at any time before the trial on your appointing that necessary attendance to you.

I. If you admit the debt, you should pay the money into Court with the costs of the suit to avoid the payment of the costs which may be against your person or property, or both, if necessary.

Madras, 1st November 1912

D. O'SULLIVAN,  
District Judge.

The Standard Barometer and Thermometers are read at 8 A.M., 12 A.M., 4 P.M., and 8 P.M., and the daily means are obtained by the application of hourly corrections, deduced from twenty years' observations. The station of the Barometer is twenty-two feet above the level of the sea, and the records of the Rain Gauge is two feet from the ground. The wind, rain and general weather registered are for the current Civil Day—from midnight to midnight.

The total quantity of rain collected since January 1st is 42.00 inches, the average due for the month being 50.00 inches.
